

INTERDEM JPND Outcome Measures Workshop
Ljubljana: 3rd September 2015
8.30 – 12.00 am
Alzheimer Europe Conference
Room (room M4)

Background

This is a closed workshop where all INTERDEM members who are at the Alzheimers Europe meeting are warmly invited to attend. Priority will be given to those present at the INTERDEM annual meeting on the day before (i.e. 2nd September 2015); since the workshop includes a working group exercise which will allow us to prepare the next agenda on outcomes and publication outputs relating to methodology and outcome measurement. So please consider carefully the outputs from the JPND project (Presentation by Professor Gail Mountain -2nd September) and do come along and join us to develop our thinking at this workshop on the 3rd September.

The workshop will take place during the plenary talks of the first day of the conference so (unlike the INTERDEM annual meeting) all participants will need to be registered at the AE conference. Participants will also include INTERDEM members who contributed to the now complete JPND outcome measure work that began at the last Alzheimers Europe Conference in Glasgow 2014. Our aim is to not repeat the work we have done, but to build on it to take it forward two areas:

- The User Consultation - next steps; and
- Developing Measures of Social Health and Participation in People with Dementia

INTERDEM members who are not sure about whether they can contribute are encourage to speak (and be persuaded by!) Esme Moniz-Cook during the INTERDEM meeting on 2nd September

Esmé Moniz-Cook

[on behalf of the INTERDEM Board and JPND group -Gail Mountain; Laila Oeksnebjerg; Rabih Chattat with Dianne Gove and Ana Dias - Alzheimers Europe]
